Dear Parents/Guardians,

Re: HKDSE Physical Education 2025–2028 Network Programme

To enhance the teaching and learning of students' senior secondary education, the school is offering the HKDSE Physical Education (P.E.) elective through Network Programme. Students participating in the programme may eventually have the chance to sit the 2028 HKDSE Physical Education examination upon satisfactory performance as determined by teachers from the school and the programme organiser. Details of the programme organiser will be announced in due course. Programme details are stipulated below:

1. Curriculum and examination details

The curriculum framework for the P.E. elective embodies the key knowledge, skills, value and attitudes of students through sports. The subject includes theoretical learning parts and practicum. Details of the subject's curriculum can be found here: https://www.edb.gov.hk/attachment/en/curriculum-development/kla/pe/curriculum-doc/PE%20C&A%20Guide_e.pdf

i. *Theoretical Learning Parts*

The theoretical curriculum covers nine compulsory modules. There is no elective module or School-based Assessment in this subject.

ii. *Practicum*

The P.E. elective emphasises a strong theory-practice linkage. In the practicum, students are required to do physical fitness training and apply theories learnt in the theoretical parts.

iii. *HKDSE Examination*

Students completing the P.E. Network Programme may take part in the 2028 HKDSE P.E. examination. The public exam in 2028 will consist of a theoretical examination component (Papers 1 & 2), which has a 60% weighting, and a practical examination component (Paper 3), which has a 40% weighting. The practical exam part (Paper 3) consists of assessment routines for two selected physical activities and four physical fitness components as stipulated below.

Assessment	Item(s)	Weighting
Physical Activity 1	Badminton/ Basketball/ Football/ Volleyball/ Table Tennis/ Handball (Choice of 1)	13⅓%
Physical Activity 2	Athletics/ Gymnastics/ Swimming (Choice of 1)	13⅓%

Students are expected to complete and submit assignments on time as required by the programme instructor.

Unit tests and examinations are held regularly. Continuation of the programme is dependent upon satisfactory performance in both lesson time and assessments, as well as achieving an attendance rate of 90% or above.

Should the student's performance be deemed below standard, he may be required to withdraw from the programme. The school reserves the right to make the final decision on entering your child into the HKDSE examination for this subject.

4. Dropping of elective subjects

Participation in this programme does not count as an HKDSE elective offered by the school. Therefore, following the school-based policy, students participating in this programme may not drop any electives until after the Mid-year Exam in S.5. Students can drop at most ONE elective scheduled in the lesson timetable. The school reserves the right to make the decision regarding the final approval of the dropping of elective subjects.

5. Fees

The course fee is covered by the Diversity Learning Grant (DLG), which is a subsidy disbursed by the Education Bureau to schools in offering Network Programmes. However, students are responsible for the payment of the HKDSE examination fee.
