Report on the Use of the Promotion of Reading Grant

2023-2024 School Year

Part 1: Evaluation of the Effectiveness

1. Evaluation of achievement of the objectives: (e.g. reading culture of the whole school, students' reading attitude, book borrowing situation and students' engagement in reading activities)

2.

In this year, the school library also spend much more on purchasing books in different disciplines than previous years, for example, books in VA, History, Music, also some movies for English learning etc. Hopefully students can expose more by reading books in or outside the school library.

Some Apps are purchased for students' at school library. More promotions are to be done.

With the application of QEF in progress, less human power and resources are to be spent on promotion.

3. Evaluation of strategies: (e.g. implementing diversified and motivating activities to promote reading, reading across the curriculum and home school co-operation)

More resources on different discipline are acquired, both printed and electronic ones. With the establishment of LAC and application of QEF, the library hope to gain some more insights on more collaboration with other teams.

The existing exhibition will still be run to draw the students' attention to the books in the library. Also, some talks and visits are expected to be included next year.
